

## Love Story Information Sheet

The Love Story is your opportunity to have your story told the way it should be – with romance, humor, sentiment and surprises, all set to music and delivered at your reception. In order to help us create your Love Story, we will need some information from you. The following is a checklist of basic information we need. The more information that you can provide, the more entertaining your Love Story will be. We may not use it all, but having it all will help us to find the perfect blend for your Love Story. Keep in mind that everything you write here could be used in telling your Love Story, so don't write anything that you wouldn't want every guest at your wedding to know. The most important information is the information about your first date, the first time you met and the proposal. These are the basis for your relationship as well as the Love Story. Please make sure we have everything in this checklist **no later than six weeks** before your wedding date to ensure a quality product.

All information is necessary for both bride and groom.
